UNITED AS SASTHA FAMILY

"Growing stronger every day"

CEO DESK

Harish Kumar
Director

Sri Sastha Precision Products PVT LTD., proud to introduce ourselves as one of the leading, resourceful, and result-oriented precision sheet metal fabrication companies, established in 1989. Based in Coimbatore, our facility spans 45,000 sq. ft. and employs over 100 highly skilled and qualified professionals.

Our manufacturing operations are equipped with a wide range of advanced CNC machines that enable us to achieve consistent precision, accuracy, and quality in all our work. We place strong emphasis on performance and measurable results, ensuring that our clients benefit from reliable outcomes and rewarding business relationships.

Sathish Kumar
Director

We are supported by a highly dedicated, well-trained workforce that consistently embraces new challenges and strives toward innovation for a better tomorrow.

Our foundation is built on precision, performance, and purpose. Meeting customer requirements while continuously

improving our methods for ease, efficiency, and excellence.

In today's competitive and technology driven environment, staying ahead requires a balance of modern innovation and time-tested craftsmanship. To achieve this, we continuously invest in advanced manufacturing capabilities, skilled professionals, and process improvements to ensure consistency and superior quality across all operations.

Quality Policy

We are committed to fulfilling customer satisfaction through the manufacture, supply, and timely delivery of quality products, supported by continual improvement of our Quality Management System.

Our policy emphasizes:

- Innovative thinking and Teamwork within the company.
- Setting and meeting high social and ethical standards.

Our foundation is built on valuing **CUSTOMERS, SUPPLIERS, AND EMPLOYEES** equally, thereby fostering trust, collaboration, and long-term growth.

Our Formula

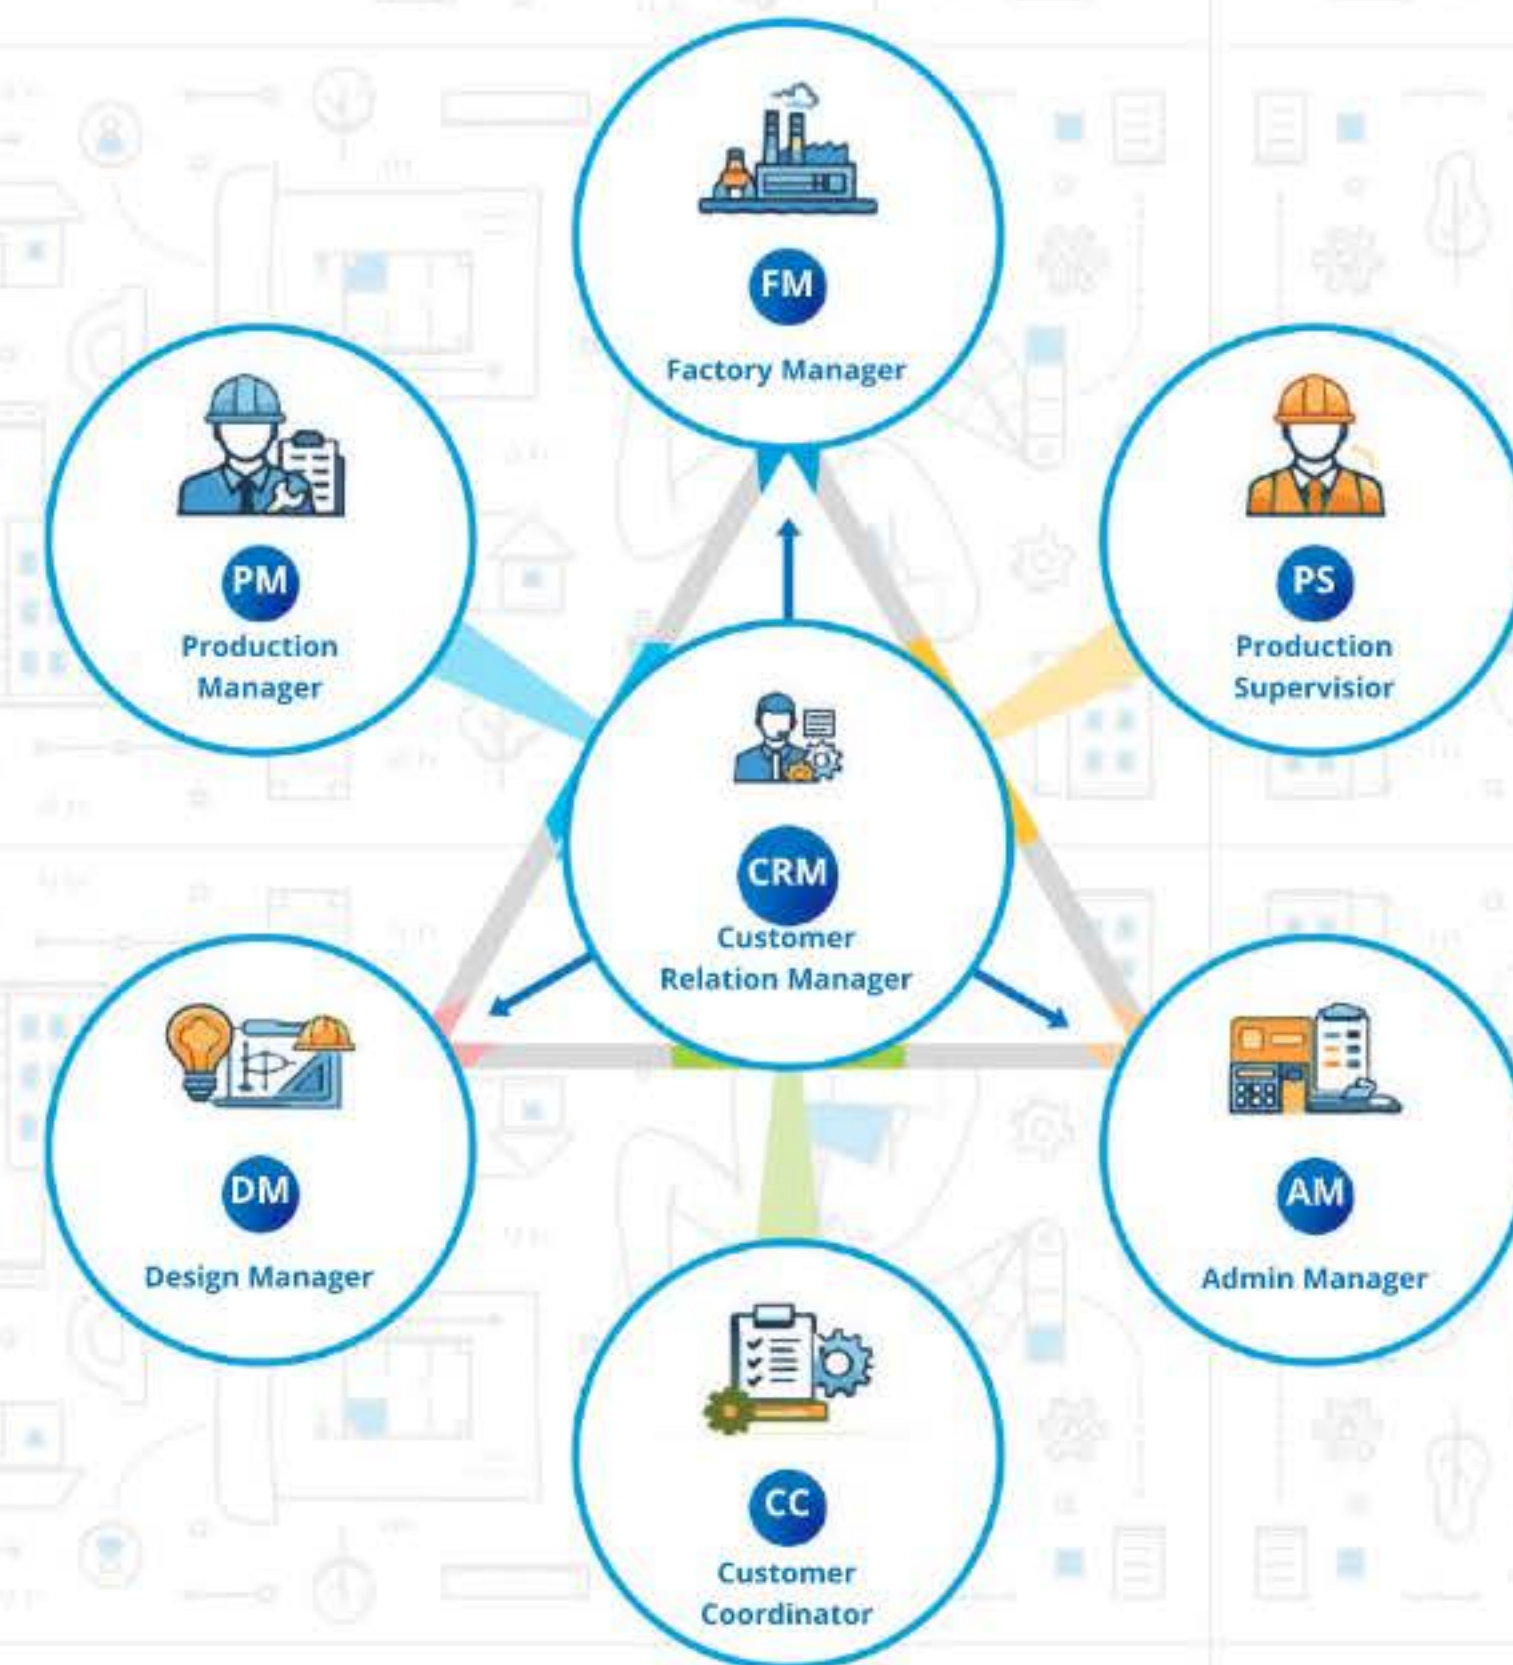

Customer Satisfaction = Success

FACTORY & OFFICE

WARDROBE FLOOR REST

Floor-resting design for better load distribution and stability

Sri Sastha , Floor Rest Wardrobe is intelligently designed to maximize storage efficiency while maintaining a refined and contemporary appearance. Unlike conventional overhead loft wardrobes that tend to sag over time, this model offers a strong floor-supported structure for enhanced durability and long-term stability.

WARDROBE FLOOR REST 6' WITH PULL OUT DRAWER | SWFR-6F-WPD
Size: W-1550 × D-655 × H-1600+100 | **Material:** MS CRCA IS 513 D Grade
Finish: Epoxy Powder Coated

WARDROBE FLOOR REST - SLIDING DOOR

Sliding Door Variant – Smart Space Solution

Sri Sastha, sliding door models, offering flexibility based on room size and user preference. For compact rooms where door clearance space is limited, the sliding model is an ideal solution. Unlike conventional open-door wardrobes that require additional swing space, sliding shutters move smoothly along precision tracks, ensuring maximum space utilization.

The sliding variant enhances practicality while maintaining the same strength, storage efficiency, and premium finish, making it a perfect solution for modern living spaces.

Space-saving design – no door swing clearance required | Smooth gliding mechanism with durable track system
Ideal for compact bedrooms and apartments | Elegant and modern appearance
Safe and convenient operation
